EDUCATION

University of Nebraska–Lincoln

B.S. Business Analytics — Minor: Computer Science

Lincoln, NE

Expected Dec 2027

SKILLS

Data & Analytics: SQL, Python, Power BI, Tableau, Excel, RStudio, R

Programming: Java, XML

Business & Professional: Inventory Management, Quality Assurance, Microsoft Word, PowerPoint

PROJECTS

Power BI Sales Performance Dashboard: Power BI

2026

- Analyzed 5,000+ sales records from 2022–2025 to evaluate revenue, profit, and regional performance, identifying trends across multiple time periods and business segments.
- Built an interactive Power BI dashboard with visual comparisons that translated sales patterns into clear business insights for performance evaluation and decision-making.

Customer Churn Analysis: Python

2026

- Analyzed contract type, tenure, monthly charges, and customer behavior in Python to identify churn patterns and segment customers into higher-risk retention groups.
- Interpreted churn drivers and translated analytical findings into targeted retention recommendations focused on reducing customer loss and improving retention strategy.

Production Optimization Analysis: Excel

2026

- Built two linear programming scenarios in Excel to maximize profit while accounting for labor, material, demand, and production constraints.
- Evaluated feasible corner points and resource boundaries across both scenarios to determine optimal production quantities and identify the highest-profit allocation.

Store Data Analysis & Processing: R, RStudio

2026

- Cleaned and standardized store datasets in R using $1.5\times$ IQR outlier detection, unit conversion, sorting, validation, and CSV transformation to improve data consistency.
- Automated numerical summation and continuous-compounding calculations by translating mathematical formulas into reproducible R code for repeatable analytical processing.

EXPERIENCE

Dunkin Donuts

Lincoln, NE

Shift Leader

Aug 2023 – Present

- Coordinate daily operations for 10–12 crew members while supporting scheduling and staffing coverage for approximately 30 employees to maintain efficient store workflows.
- Manage inventory, daily bank deposits, customer issues, and operational priorities while helping maintain service quality and consistent day-to-day execution.

University of Nebraska–Lincoln

Lincoln, NE

Student Assistant / Peer Support

Aug 2024 – Mar 2025

- Supported students with coursework and technology-related questions while coordinating faculty and student appointments and assisting with day-to-day academic support needs.
- Collaborated with students on assignments and team projects, applying communication, problem-solving, and technical support skills to improve understanding and task completion.

University of Nebraska–Lincoln

Lincoln, NE

Library Support Assistant

Aug 2023 – Oct 2024

- Assisted students and staff with library resources, technology issues, and general support requests while maintaining an organized and accessible study environment.
- Helped resolve routine resource and technology questions, improving access to campus tools and supporting efficient use of library services.

ACTIVITIES & LEADERSHIP

African Student Association — *Public Relations Officer / Volunteer*

2026 – Present

- Manage social media, event promotion, and student outreach while collaborating with organizational leadership to increase engagement and awareness of community activities.
